S. DEEPAKUMAR

Karur, Tamil Nadu | skdeepakumar000@gmail.com | GitHub | LinkedIn
Portfolio | LeetCode

PROFESSIONAL SUMMARY

Computer Science and Engineering student developing web applications with Python, Flask, Django, JavaScript and SQL. Project work covers institution complaint tracking, citizen reporting, transit planning and student platforms. Comfortable building responsive interfaces, connecting databases and working with Git and Postman. Seeking a software development or full-stack internship with opportunities to learn through practical work.

EDUCATION

B.E. Computer Science and Engineering | Nehru Institute of Engineering and Technology, Coimbatore | 2025-Present | 2nd Year | CGPA: 8.5

TECHNICAL SKILLS

Programming: Python, C, C++, Java, JavaScript

Frontend: HTML5, CSS3, JavaScript, Responsive Web Design, UI/UX Basics

Backend & APIs: Flask, Django, REST API Concepts

Databases: SQLite, PostgreSQL, Supabase, PostGIS

Tools & Platforms: Git, GitHub, Postman, Vercel, Render

Core Concepts: Object-Oriented Programming, Data Structures, Debugging

PROJECTS

AUGIS - AICTE Unified Grievance Intelligence System

Technologies: Python, Django, PostgreSQL, Bootstrap, HTMX, Chart.js, Gemini AI

- Built an AICTE problem-statement prototype for tracking institution-related complaints across bureaus and cells.
- Added centralized case histories, bureau-wise status tracking, overlap alerts and AI-assisted scrutiny to support coordination.

Project Link: Live Project | GitHub Link: Source Repository

FestivalFlow AI - Smart Population & Transit Engine

Technologies: Python, Flask, JavaScript, Leaflet.js, PostgreSQL/PostGIS, AI/ML concepts, Google OR-Tools

- Developed a transit-planning project concept for anticipating festival-related passenger demand in Tamil Nadu.
- Outlined demand forecasting, map-based monitoring and fleet allocation approaches for high-demand bus hubs.

Project Link: Live Project | GitHub Link: Source Repository

Connecting Social Problem - Citizen Grievance & Solution Hub

Technologies: React, JavaScript, HTML, CSS, PostgreSQL/Supabase, Vercel

- Built a platform to submit and explore community issues through structured digital reports.
- Grouped reports under roads, water, sanitation, agriculture, environment and public safety.

Project Link: Live Project | GitHub Link: Source Repository

TVK CBE North Ward 19 - Complaint Portal

Technologies: HTML, CSS, JavaScript, Python Flask, Supabase/PostgreSQL, Render

- Designed the ward complaint interface for submissions and complaint-status tracking.
- Included location and contact fields, optional image uploads, complaint codes and progress updates.

Project Link: Live Project

Smart Exam Portal for Students

Technologies: Python Flask, SQLite, HTML, CSS, JavaScript

- Developed an offline coding examination portal with separate teacher and student workflows.
- Included question management, student coding workspace and local submission tracking for supervised assessments.

GitHub Link: Source Repository

NIET Student Election - Online Voting System

Technologies: Python Flask, SQLite, HTML, CSS, JavaScript

- Developed separate voter and administrator workflows, including registration and candidate management.
- Added duplicate-vote prevention, result views, vote percentages and CSV export.

Project Link: Live Project | GitHub Link: Source Repository

SmartCampus - Campus Management & ERP Platform

Technologies: Web Application, Role-Based Access, Campus Management

- Built a centralized campus management interface with separate workflows for students, faculty and administrators.

Project Link: Live Project

OTHER ACADEMIC PROJECTS

Motion Object Detection: Developed an application to detect movement in image or video input. **Face Expression Detection:** Explored facial expression identification using computer vision. **E-Commerce Website:** Designed a responsive product-focused website.

CERTIFICATIONS & ACHIEVEMENTS

- SAKTHI HACKFEST 26 - 24-Hour Hackathon, Sree Sakthi Engineering College | Generative AI Domain | Oct 2026
- 30 Days MasterClass in Full Stack Development - NoviTech R&D | Jan-Feb 2026
- 30 Days MasterClass in Artificial Intelligence - NoviTech R&D | Mar-Apr 2026
- 30 Days MasterClass in UI/UX Design - NoviTech R&D | Apr-May 2026
- Frontend Bootcamp: Events in JavaScript - NoviTech R&D | Feb 2026
- API Working + Postman Introduction - NoviTech R&D
- 2-Hour Skill Camp: From Click to Hack - NoviTech R&D | Apr 2026
- 2-Hour Skill Camp: AI-Driven IT Sectors - NoviTech R&D | Apr 2026
- 2-Hour ATS Resume Optimization Workshop - Tech Drew | May 2026
